

# ABDULRAHMAN A

AWS DevOps Engineer

Trichy, India | +91 8248088037 | [abdulrahman90196@gmail.com](mailto:abdulrahman90196@gmail.com) | [LinkedIn](#) | [Portfolio](#) | [Github](#)

## PROFESSIONAL SUMMARY

AWS DevOps Engineer with 1 year of combined experience in cloud infrastructure, automation, and DevOps practices. Skilled in AWS services, Terraform, Docker, CI/CD pipelines, and Linux server administration. Hands-on experience in deploying applications on ECS Fargate, automating infrastructure provisioning, managing backups, and supporting reliable cloud environments.

## PROFESSIONAL EXPERIENCE

### Junior DevOps Engineer | Sep 2025 - June 2026

CloudGarage LLP

- Managed AWS services like EC2, S3, IAM, VPC, ECS, RDS, Route 53, and CloudWatch.
- Created Terraform modules for AWS infrastructure automation.
- Built CI/CD pipelines using AWS tools and GitHub Actions.
- Deployed Docker applications using ECR and ECS Fargate.
- Managed Linux servers, backups, monitoring, and basic security.
- Used CodeDeploy for zero-downtime blue/green deployments.

### AWS DevOps Engineer Intern | June 2025 - Aug 2025

CloudGarage LLP

- Supported AWS services like EC2, S3, IAM, VPC, and CloudWatch.
- Helped with Linux server setup, SSH, firewall rules, and troubleshooting.
- Worked with Docker and Docker Compose for application deployment.
- Assisted in CI/CD pipelines using GitHub Actions.
- Helped write Terraform code for cloud infrastructure automation.

## PROJECTS

### MyProperty - Multi-Domain Property Platform | Mar 2026 - June 2026

Client : Sumisa Technologies

- Updated AWS infrastructure using Terraform.
- Built CI/CD pipelines using CodePipeline, CodeBuild, and CodeDeploy.
- Deployed applications on ECS Fargate using blue/green deployment.
- Designed VPC with public and private subnets across 2 AZs.
- Added CloudWatch, SNS alerts, WAF, and IAM security controls.

### AutoCloud - AWS Resource Automation Platform | Nov 2025 - Feb 2026

Client : Internal

- Built an AWS infrastructure automation platform using Terraform.
- Developed reusable Terraform modules for VPC, EC2, RDS, S3, ECR, ECS, SNS, and Golden AMI images.
- Created Terraform code that connects with a web application to provision AWS resources automatically based on user input.
- Used Checkov to scan Terraform code and improve infrastructure security.
- Worked with frontend and backend teams to integrate Terraform automation with the platform.

### Hetzner Dedicated Server Setup | Sep 2025 - Oct 2025

- Set up and configured a Hetzner dedicated server with Ubuntu Linux.
- Managed disk setup, storage, users, and server access for development and testing.
- Configured Teleport for secure developer access with audit logging.
- Created an automated backup system using Bash, rsync, and hard links.
- Scheduled weekly full backups and daily incremental backups to Hetzner Storage Box.
- Added 7-day backup rotation for safe restore and storage management.

## TECHNICAL SKILLS

### Cloud:

AWS: EC2, S3, IAM, VPC, RDS, ECS Fargate, ECR, ELB, Route 53, CloudWatch, SNS, CloudTrail, CodePipeline, CodeBuild, CodeDeploy

### Operating System & Tools:

Linux, Windows, Github, Docker, Terraform, Checkov, Nginx, Github Action, Docker Compose, Basic Jenkins, Teleport

### Programming and Database:

C, Python, Shell Script, MySQL

### Others:

YAML, JSON

## EDUCATION

### B.Tech - Information Technology

University College of Engineering (BIT Campus), Anna University, Trichy

Aug 2021 - June 2024 | CGPA: 7.13

### Diploma - Engineering

Kongunadu Polytechnic College, Trichy

June 2018 - Jul 2021 | CGPA: 8.30

## CERTIFICATIONS

### Networking Basics

Cisco Networking Academy

Issued Mar 2026

### Cloud Essentials

Naan Mudhalvan

Issued Mar 2023
