

ABDULRAHMAN A

AWS Cloud & DevOps Engineer

Trichy, Tamilnadu, India | +91 8248088037 | abdulrahman90196@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

AWS Cloud & DevOps Engineer with **1+ year** of hands-on experience in **AWS, Terraform, Docker, Linux, and CI/CD**. Experienced in engineering **automated cloud infrastructure, reusable Terraform modules, containerized deployments, production Linux environments, and secure CI/CD pipelines** using **GitHub Actions and AWS DevOps services**. Hands-on experience with **ECS Fargate, VPC, IAM, ALB, WAF, CloudWatch, and Infrastructure as Code security using Checkov**.

TECHNICAL SKILLS

Cloud (AWS): EC2, S3, IAM, VPC, RDS, ECS Fargate, ECR, WAF, ALB, Route 53, ACM, EBS, EFS, ASG, CloudFront, CloudWatch, SNS, SQS, CloudTrail, CodePipeline, CodeBuild, CodeDeploy

Infrastructure as Code: Terraform, Checkov

DevOps & CI/CD: Docker, Docker Compose, Git, GitHub Actions, Jenkins, Nginx, Kubernetes (Basic)

Networking: TCP/IP, DNS, HTTP/HTTPS, DHCP, OSI Model

Monitoring: CloudWatch, Prometheus, Grafana

Programming & Database: Python, Shell Scripting, MySQL

Operating Systems: Linux, Windows

WORK EXPERIENCE

Role: Junior DevOps Engineer | *CloudGarage LLP* | *July 2025 – Present*

- Engineered and automated **AWS infrastructure provisioning** using **Terraform and CI/CD pipelines**.
- Administered **Linux production servers** and managed **containerized application deployments using Docker**.
- Executed **production releases and deployments** across cloud-based application environments.
- Designed and implemented **secure, scalable cloud infrastructure** aligned with application requirements.
- Partnered with **frontend and backend development teams** to **integrate cloud infrastructure** with application platforms.

PROJECTS

Auto Cloud – Multi-Cloud Automation Platform | *March 2026 – June 2026*

Tools: AWS | Terraform | GitHub Actions | Checkov

- Developed **reusable Terraform modules** for **EC2, VPC, S3, IPAM, ECR, ECS Fargate, Golden Image, SNS, and RDS**.
- Designed scalable** Terraform variable structures (tfvars) for **dynamic infrastructure provisioning**.
- Integrated Checkov** for **Infrastructure as Code (IaC) Security Scanning and validation**.
- Collaborated with frontend and backend teams** to integrate cloud infrastructure with the application platform.

Sumisa Tech – AWS DevOps & CI/CD Platform | *December 2025 – February 2026*

Tools: AWS | Terraform | ECS Fargate | CodePipeline | CodeBuild | CodeDeploy

- Designed AWS infrastructure using **Terraform**.
- Built CI/CD pipelines** using **AWS CodePipeline, CodeBuild, and CodeDeploy**.
- Implemented **Blue-Green deployments** on **ECS Fargate**.
- Configured **Application Load Balancer (ALB)** with multiple **Target Groups**.
- Designed a secure VPC architecture** across **two Availability Zones**.
- Integrated **AWS WAF, CloudWatch monitoring, SNS notifications, and IAM least-privilege policies**.

Server Deployment & DevOps Operations | *July 2025 – Present*

Tools: Linux | Docker | Docker Compose | Nginx | GitHub Actions

- Deployed, managed, and maintained applications** on **Linux servers in production environments**.
- Containerized applications** using **Docker and Docker Compose**.
- Configured **Nginx reverse proxy, SSL/TLS, and domain routing** for **secure application hosting**.
- Automated build, testing, and deployment workflows** using **GitHub Actions**.
- Executed **production deployments** through **automated and manual release processes**.
- Managed **production deployments** for **Vivagham Singapore, Labely, VRB Garments, and AutoCloud**.

EDUCATION

B.Tech – Information Technology | *August 2021 – June 2024*

University College of Engineering (BIT Campus), Anna University, Trichy | CGPA: 7.13/10

Diploma in Engineering | *June 2018 – July 2021*

Kongunadu Polytechnic College, Trichy | CGPA: 8.30/10

CERTIFICATIONS

- Networking Basics — Cisco Networking Academy | Issued March 2026
- Cloud Essentials — Naan Mudhalvan | Issued March 2023
- AWS Cloud Engineer Intern — CloudGarage LLP | April 2025 – June 2025
